

Inspection body

We are an inspection body, reference material producer and proficiency testing (PT) provider. For a wide selection of proficiency testing schemes the DRRR is accredited acc. DIN EN ISO/IEC 17043 (please look into the appendix of our scope of accreditation). Proficiency Testing schemes that are not covered by the scope of accreditation are specially marked with °) in the product catalogue/on the homepage.

In very rare individual cases an accredited proficiency testing round will not be carried out within the scope of accreditation due to technical or organizational reasons. In these rare cases the DRRR will inform the participants before the start of the proficiency testing round, thus before the sample shipment. An immediately free cancellation for the participants is possible until the date of the sample shipment.

Your benefit

Our proficiency testing schemes cover a wide range of tests and analysis for material testing. Thus you can benefit from our high quality standards in all important testing fields:

in 2020 more than 500 accredited Proficiency testing schemes are offered

By participating in our proficiency testing schemes you have an objective and independent impression of your quality and performance of your routine testing method. Your benefits taking part in DRRR proficiency testing schemes:

- Participation in proficiency testing is required by several facilities
- Participants can compare, assure and improve their own performance and quality
- Recognition of the applied method compared to the other laboratories
- Unquestionable lab performance towards customers and certification authorities
- Saving costs of lab development and maintenance
- Saving on the working time in the lab and many other benefits

Statistical principles

Depending on the distribution of the data, the following statistical methods are used for evaluation, amongst others:

- sensible statistics
- sensible statistics with outlier elimination (e.g. Grubbs or expert outliers)
- robust statistics (Hampel-Schätzer, Q-method)

Registration/information

Simply brilliant, your proficiency testing with ODIN.

- Convenient proficiency testing participation with ODIN easy, safe and clearly
- Fast and easy online registration / online announcement in our online catalogue
 - Direct management and booking of the proficiency testing
 - Overview about the registered proficiency testing schemes
 - Fast and secure submission of your results via ODIN
 - Online access to individual customers reports and certificates
 - Supervisor rights available to overview all PTs of a multi-site company
 - saving of costs through booking and submission of your results via ODIN

You can also use the following pages as a registration form or download them on our homepage:
