

# Connect the dots...

## You are invited to our 2021 Proficiency Testing Masterclass

Join AXIO Proficiency Testing for a free 2 day, multi-session, multi-language masterclass in PT – live or on-demand. Sessions will be available in English, Spanish, German, Italian, French & Polish.

### What's Involved? 26th October

#### Introduction to proficiency testing 11:00 GMT | 12:00 CET

Learn how PT can play a vital role in your laboratory's quality management system. In this session we explore how a lab should utilise a PT scheme to maximise the benefits of participation.

#### How a proficiency testing scheme operates 13:00 GMT | 14:00 CET

To create and operate a PT scheme a range of factors need to be considered, this includes scheme design and management, data collection analysis, PT reports and accreditation. AXIO explores this in more details.

#### Selecting the most appropriate PT 15:00 GMT | 16:00 CET

Learn how to establish your PT strategy by selecting the right proficiency testing scheme to truly drive quality in your laboratory's operations.

### What's Involved? 27th October

#### Evaluation of PT performance 11:00 GMT | 12:00 CET

AXIO explores how to evaluate PT performance through performance assessment via a variety of different methods, including qualitative & quantitative data.

#### Interpretation and use of PT data 13:00 GMT | 14:00 CET

Learn how to utilise your results to work for you and your laboratories operations. This session dives into how to investigate and rectify unsatisfactory performance in PT rounds.

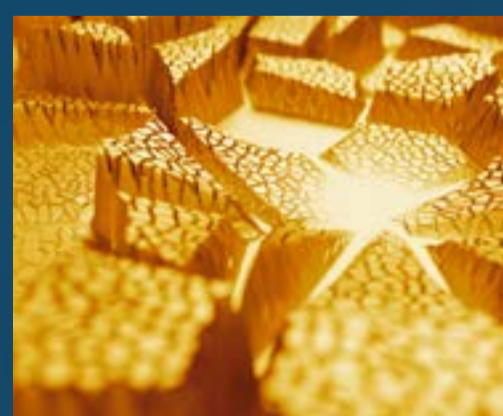

#### AXIO Proficiency Testing 15:00 GMT | 16:00 CET

For 40 years we have been leading the direction of proficiency testing. We design our schemes to meet your laboratories current and future needs. Find out about our most recent development and why AXIO is your perfect partner in proficiency.

## Science for a safer sector

30 minute bitesize sessions where we will explore the latest trends and things to look out for in your specific sector...

#### Science for a safer sector: Food & Feed

26th October
