Invitation: Webinar on conformity assessment building trust in a digital world

Dear Sir or Madam,

We are pleased to invite you to attend *Conformity assessment building trust in a digital world*, a webinar during which we will address the need to provide assurance of quality and safety for increasingly complex and digitalized objects.

The webinar will take place on Tuesday, 21 November 2023, from 13:00 to 14:30 CET.

This webinar follows on from the **CASCO Workshop on conformity assessment and digitalization**, held as part of the 37th CASCO Plenary in April 2023. Please note that attendance at the April workshop is not a prerequisite to attending this webinar.

Click [here](#) to find out more about the event and to register.

Conformity assessment building trust in a digital world is open to anyone who is interested in the subject matter. We encourage you to share the registration link with anyone you know who may be interested.

Best regards,

A handwritten signature in black ink, appearing to read 'C. Draghici'.
