

INVITATION FOR PARTICIPATION

**INTERLABORATORY TECHNICAL PROJECT
MC 02/2023***To the Managers of construction laboratories***INVITATION**

For participation in interlaboratory comparison and proficiency testing according to the requirements of EN ISO/IEC 17043:2010.

Dear Colleagues,

PT provider UCLSB invites you to take part in Interlaboratory Technical Project MC 02/2023. Test subjects will be: Hardened concrete, according to the pointed standards and parameters (characteristics) in the following table:

Test subject	Code of the standard	Name of the standard	Tested parameters (characteristics)
Hardened concrete	EN 12390-3	Testing hardened concrete - Part 3: Compressive strength of test specimens.	Compressive strength ua
	EN 12390-7	Testing hardened concrete - Part 7: Density of hardened concrete.	Density of hardened concrete ua

ua - under accreditation, within the scope of accreditation of the PT provider; oa - out of the scope of accreditation of the PT provider

- Each laboratory may participate with one or both of the products according to the filled application form (QF 4.4-4).
- Test will be carried out according to the latest versions of the standards
- For the purpose of uncertainty calculation of test results and their statistical analysis we **may** ask you in cases where the test method requires determination of less than three test results, still their minimum number of determinations to be not less than 3 (only when it is required by the PT provider).
- The samples will be taken, homogenized, reduced and tested for homogeneity and stability by the subcontractors of PT provider UCLSB under its supervision.
- The participants will receive their samples after the PT provider UCLSB has established an appropriate level of homogeneity, which allows obtaining of repeatable and reproducible results.
- By completing and submitting the application for participation (QF 4.4-4), each participant agrees and accepts the proven homogeneity and representativeness of each sample for the purposes of the proficiency test in this interlaboratory technical project.
- The samples will be distributed until 05.05.2023.
- The statistical analysis of the results and the report will be prepared by the technical expert of PT provider UCLSB Associate Professor Eng. Ljubomir Brakalov

Period of realization of the project: February 2023 ÷ July 2023

Participation fee:

The price for participation depends on which country the relevant participant is from, due to the difference in the expenses for the delivery of the test sample. For more information please use the contacts given in the end of this invitation for participation!

The participation fee includes: taking and reducing of the samples, preparing of the test subjects, homogeneity and stability tests, packing, **distribution/shipping**, statistical analysis, preparing and receiving of a report in Bulgarian and English languages (QF 4.8-1) and a certification for participation (QF 4.9-1) in interlaboratory comparison and proficiency testing. The report will be sent via mail. The certificate for participation will be sent via mail (scanned copy) and via post office (original).

NOTE: You will receive the Report in Bulgarian language at first according to the given deadline. The English version of the report is free of charge and it will be sent to you 2 or 3 weeks after the Bulgarian version.

Application form (request for participation) QF 4.4-4 will be accepted until 31st March 2023 at the latest.

You will be notified via mail until 5th April 2023 about which products and parameters (characteristics) will be included in Interlaboratory Technical Project MC 02/2023 depending on the submitted application forms. The participation fee should be transferred from 6th April until 30th April 2023 using the following bank account:

PT Provider UCLSB Ltd
Bulgaria, 5300 Gabrovo
№ 6 “Ivan Dimov” str.
VAT: BG 206627780
Accountable person: eng. Iliyan Iliev
Account: First Investment Bank
IBAN: BG 40 FINV 91501017572086
BIC: FINVBGSF

ATTENTION!

- Interlaboratory technical project MC 02/2023 will be performed if minimum 5 participants decide to participate for at least one of the parameters/characteristics of the relevant product!
- The minimum number of participants for a parameter to be included in the relevant PT scheme is 5.
- All participants will receive further instructions for the process of implementing the relevant PT scheme.
- Only participants with paid participation fee will be included in the project!
- You will receive a pro-forma invoice and after the payment is made you will receive the original invoice.
- So, if you would like to participate in the project, please fill in the application form (QF 4.4-4) and send it to the pointed e-mail below not later than 31.03.2023!
- You should send a scanned payment order for the made transaction to the same e-mail not later than 30.04.2023!
- **Important:** For more details on participation and conditions for participation, preparation, report and statistical processing, see QF 4.4-1 Detailed test plan

To all who will decide to take part in the project we wish luck and successful performance!
